Question: In which area of Yorkshire do you live?

Question:

What are your feelings on the closure of health services in Driffield?

The size and population of Driffield requires a hospital service

With all the new houses being built in the area it's ridiculous removing all the services of the Alfred Bean.

Very upset as it is a good local support service for a lot of people.

Patients need access to local medical/hospital care.

More people having to travel many miles adding to the air pollution.

Worrying, as Driffield grows its services are closing.
